About Natural Gas Charges

The **Distribution & Service Charges** line refers to the amount you pay for equipment and services, which provide our customers natural gas service. Fees consist of everything it takes to ensure continued safe, reliable delivery of natural gas. This includes pipeline maintenance, system enhancements, and technology that helps manage energy use. Also, included in this charge is the cost related to transporting your natural gas, which is based on the amount of natural gas used.

The **Gas Cost Charge** line reflects the dollar-for-dollar pass-through cost of the natural gas your home or business consumes; CenterPoint Energy cannot profit from nor mark up this price.
