

Annual CCR Fugitive Dust Control Report

F.B. Culley Generating Station – West Ash Pond

June 13, 2019

40 CFR §257.80(c) Annual Fugitive Dust Control Report

The owner or operator of a CCR unit must prepare an annual CCR fugitive dust control report that includes a description of the actions taken by the owner or operator to control CCR fugitive dust, a record of all citizen complaints, and a summary of any corrective measures taken.

The F.B. Culley Generating Station has not received any citizen complaints regarding CCR fugitive dust related to the West Ash Pond since the Fugitive Dust Control Plan was prepared on April 18, 2017 and revised in April 2019.

Potential dust on roadways around the ash pond and temporary access roads within the footprint of the ash pond has been managed with the use of water trucks.
