**Commercial and industrial rebate programs and services**

Your rebate programs and services guide to energy-efficient solutions

Save energy and money with CenterPoint Energy's rebate programs and services. From rebates for qualifying boilers and boiler system components, to other heating systems, water heaters, foodservice and custom rebates. We also have programs to help you identify ways to save in your facility, such as the Commercial and Industrial Audit Services Program and design and engineering programs.

Choose natural gas for your energy needs and you could improve efficiency without sacrificing comfort and cut energy costs in the future.

**Boilers**

Equipment	Customer rebate	Efficiency rating*
High-efficiency hot water boilers	<b>\$1,800/MMBtuh input</b>	85 - 87.9%
Condensing efficiency hot water boilers	<b>\$3,500/MMBtuh input</b>	≥88%
Steam boilers (high- and low-pressure)	<b>\$500/MMBtuh input</b>	≥83% thermal efficiency

**Boiler system components**

Equipment	Customer rebate
Boiler tune-ups**	<b>25% of tune-up cost; up to \$300/boiler; eligible every other year</b>
Steam trap repair/replacements†	<b>35% of repaired/replaced equipment cost</b>
Boiler turbulators	<b>35% of equipment and installation costs, up to \$750/boiler</b>
Modulating burner replacements	<b>\$450/MMBtu input; up to 25% of equipment cost</b>
Stack dampers	<b>\$250/MMBtu boiler input; not to exceed 35% of equipment and installation costs</b>
Boiler reset controls	<b>\$150/control system; not to exceed equipment cost</b>
Boiler cut-out controls	<b>\$150/control system; not to exceed equipment cost</b>
Linkageless controls	<b>\$300/MMBtu boiler input</b>
Pipe insulation (hydronic heat, low- and high-pressure steam heat)	<b>\$2.50/lineal foot (LF), retrofit only</b>

\*Boiler efficiency rating to represent the installed operating efficiency of the boiler for the application (i.e. based on designed return water temperature, average input level, steam pressure, etc.).

\*\* Eligible every other year.

†Trap type includes float and thermostatic (F&T), bucket, and thermostatic. Orifice traps do not qualify.

Terms and conditions apply.

**Other heating systems**

Equipment	Customer rebate	Efficiency rating
Forced-air furnaces and single package vertical units	<b>\$200/furnace</b>	92% - 95.9% AFUE
	<b>\$400/furnace</b>	96% - 96.9% AFUE
	<b>\$600/furnace</b>	≥97% AFUE
Smart thermostats	<b>\$50/thermostat</b>	
Condensing unit heaters	<b>\$300/heater not to exceed 25% of equipment cost</b>	≥88% thermal efficiency
Infrared heaters	<b>\$250/heater</b>	Low-intensity tube-type
CO garage sensors	<b>\$100/sensor</b>	Retrofit only
Garage door hinge (spring-loaded)	<b>\$7.50/hinge</b>	
Garage air curtains	<b>\$20/sq ft garage door area</b>	
Demand control ventilation	<b>\$100/sensor</b>	Retrofit only
Electronic ignition hearth	<b>\$75/hearth</b>	
Energy recovery wheels	<b>\$0.50/CFM</b>	
High-volume low-static fans	<b>\$500/fan</b>	

[CenterPointEnergy.com/CommercialTradeAlly](http://CenterPointEnergy.com/CommercialTradeAlly)

**Did you know?**

Having your boiler tuned-up at least every two years can increase boiler operating efficiency from 1 to 5%.

Modulating burners can allow for 3% better efficiency and lessen cycling of your boiler system during part-load seasons.

As part of your building automation system, adding boiler controls (such as cut-out and reset controls) can save energy and money by optimizing their hot water temperature. This helps your boiler operate about 5% more efficiently.

Infrared and condensing unit heaters can operate 10% more efficiently than standard natural gas unit heaters.

Water heaters

Equipment	Customer rebate	Efficiency rating
Water heaters tank or tankless	\$200/100,000 Btuh input	≥88% efficiency
Tank water heaters ≤75,000 Btuh	\$250/unit	≥.64 UEF (medium usage bin ≤55 gal) ≥.68 UEF (high usage bin ≤55 gal) ≥.80 UEF (high usage bin >55 gal)
Pipe insulation domestic hot water	\$2.50/lineal foot (LF)	Retrofit only

Note: For tank water heaters ≤75,000 Btuh rebate to apply, the new equipment must be listed and Uniform Energy Factor (UEF) or thermal efficiency verified on the current Air-Conditioning, Heating and Refrigeration Institute (AHRI) or ENERGY STAR® websites.

Commercial laundry

Equipment	Customer rebate
Ozone laundry retrofit only	\$10/lb washer capacity
Modulating clothes dryer retrofit only	\$250/kit

\*Retrofit valve. Moisture sensors do not qualify.

Did you know?

Condensing hot water heaters recover heat from combustion flue gas for your domestic hot water, saving them about 10 to 15% in hot water energy costs.

Multi-family property owner or manager? Take advantage of BONUS INCENTIVES (prescriptive measures only).

MultiFamilyEnergySolutions.com

**30% BONUS** Incentive to rebates earned on market-rate multi-family housing

**3X BONUS** Incentive to rebates earned on affordable multi-family housing, up to the equipment cost

Industrial process equipment

Equipment	Customer rebate	Efficiency rating*
Industrial high-efficiency hot water boilers	\$1,800/MMBtuh input	85 - 87.9%
Industrial condensing efficiency hot water boilers	\$3,500/MMBtuh input	≥88%
Industrial steam boilers (high- and low-pressure)	\$500/MMBtuh input	≥83% thermal efficiency
Industrial equipment tune-up**	25% of tune-up cost	
Industrial stack economizers (non-condensing)	\$500/MMBtuh input	
Industrial stack economizers (condensing)	\$1,000/MMBtuh input	
Industrial steam trap replacements†	35% of repaired/replaced equipment costs	
Industrial boiler turbulators	35% of equipment and installation costs up to \$750	
Industrial modulating burner replacements	\$450/MMBtu boiler input, not to exceed 25% of equipment cost	
Industrial stack dampers	\$250/MMBtu boiler input, not to exceed 35% of equipment cost	
Industrial boiler reset controls	\$150/control system, not to exceed equipment cost	
Industrial boiler cut-out controls	\$150/control system, not to exceed equipment cost	
Industrial linkageless controls	\$300/MMBtu boiler input	
Industrial pipe insulation (hydronic heat, low- and high-pressure steam heat)	\$2.50/lineal foot (LF), retrofit only	

\*Boiler efficiency rating to represent the installed operating efficiency of the boiler for the application (i.e. based on designed return water temperature, average input level, steam pressure, etc.).

\*\*Eligible every other year. Terms and conditions apply.

†Trap type includes float and thermostatic (F&T), bucket, and thermostatic. Orifice traps do not qualify.

CenterPointEnergy.com/ProcessRebates

Custom rebates

Our custom rebates are designed for the unique equipment needs of our commercial and industrial customers pertaining to natural gas consumption in a manufacturing process or for heating or water heating.

Engineering Assistance Program

If you need further engineering assistance identifying energy-efficiency projects, the Engineering Assistance Study Funding program provides funding up to \$5,000 to commercial and industrial customers for a portion of engineering fees for study, design and installation of qualifying energy-efficiency projects. Customers may be eligible for up to an additional \$5,000 if qualifying natural gas technologies are installed. Pre-approval of the study and funding are required prior to starting.

Custom rebate examples

The following equipment qualifies for a custom rebate. Other natural gas equipment may qualify if it will save energy for your operations:

- Air destratification systems
- Control systems
- Waste heat recovery
- Heat-treating furnaces
- Dust-collection systems
- Process tank insulation

Be sure to contact CenterPoint Energy early in the project planning stage to discuss any custom rebate possibilities.

CenterPointEnergy.com/MNCustom

Allowing customers to choose the services that fit their needs, this program starts with the Natural Gas Energy Analysis to help identify energy-saving opportunities. Find the program below that works best for you.

AUDIT (DAYS)	Cost to participate
<p><b>Natural Gas Energy Analysis (NGEA) - Commercial/Industrial</b></p> <ul style="list-style-type: none"> <li>Identify energy-saving opportunities for buildings of any size</li> <li>Examine current energy consumption, installed natural gas equipment and how it is operating</li> <li>Opportunity to update door gaskets, door sweeps, aerators, programmable thermostats and showerheads at no additional cost</li> <li>Basic to comprehensive audit offerings</li> <li>Potential for rebates</li> </ul> <p style="text-align: right;"><a href="http://CenterPointEnergy.com/EnergyAnalysis">CenterPointEnergy.com/EnergyAnalysis</a></p>	<p>\$50 co-pay (Basic)</p> <p>\$200 co-pay (Comprehensive)</p> <p>\$500 co-pay (Comprehensive combo natural gas and electric if in both CenterPoint Energy and Xcel Energy's territory)</p> <p>Ad hoc services (based on services provided)</p>
PROGRAM/STUDY	Funding available
<p><b>Steam Trap Audit - Commercial/Industrial</b></p> <ul style="list-style-type: none"> <li>Testing every steam trap in your facility to identify those that need to be replaced or repaired</li> <li>Document locations and steam trap types in your building</li> <li>Ideal for any building using steam for heating or process equipment</li> <li>Rebates for qualifying installed equipment</li> <li>Customers are eligible to participate in the Steam Trap Audit Program every other year</li> </ul> <p style="text-align: right;"><a href="http://CenterPointEnergy.com/SteamTrapAudit">CenterPointEnergy.com/SteamTrapAudit</a></p>	<p>Pays \$15/tested trap, up to 100% of audit costs</p> <p>Potential for rebate of 35% of repaired/replaced cost</p>
STUDY (MONTHS)	Funding available
<p><b>Recommissioning - Commercial/Industrial</b></p> <ul style="list-style-type: none"> <li>Funding for third party to identify energy-saving measures for entire facility or a specific system (i.e. ventilation, building automation or boiler optimization) to bring your building back to peak operating performance</li> <li>Ideal for schools, churches, institutions, foodservice applications and more complex commercial spaces</li> <li>Rebates for qualifying installed equipment</li> </ul> <p style="text-align: right;"><a href="http://CenterPointEnergy.com/EngineeringPrograms">CenterPointEnergy.com/EngineeringPrograms</a></p>	<p>Funding third party study costs up to 75% capped at \$10,000 (contingent upon energy saving potentials)</p>
<p><b>Scoping Audit - Industrial</b></p> <ul style="list-style-type: none"> <li>Third party audit to identify multiple energy-efficiency improvements for industrial customers that use natural gas for process and heating loads</li> <li>Ideal for industrial customers with complex processes, such as manufacturing, food processing, metal fabrication, etc.</li> </ul> <p style="text-align: right;"><a href="http://CenterPointEnergy.com/ScopingAudit">CenterPointEnergy.com/ScopingAudit</a></p>	<p>Funding third party study costs up to 90% capped at \$15,000 (contingent upon pre-approval after CenterPoint technical review)</p>
<p><b>Engineering Assistance - Commercial/Industrial</b></p> <ul style="list-style-type: none"> <li>Funding for third party engineering evaluation to identify energy efficiency projects</li> <li>Commonly used for capital funded projects</li> <li>Rebates for qualifying installed equipment</li> </ul> <p style="text-align: right;"><a href="http://CenterPointEnergy.com/MNCustom">CenterPointEnergy.com/MNCustom</a></p>	<p>Up to \$5,000 funding for study costs</p> <p>Additional study cost funding up to \$5,000 for installation of study recommended projects (Capped at 50% of project costs)</p>

LONG-TERM COMPREHENSIVE PLAN (YEARS)	Funding available
<p><b>Industrial Process and Commercial Efficiency - Commercial/Industrial</b></p> <ul style="list-style-type: none"> <li>Multi-phase program to address long-term comprehensive energy efficiency plans</li> <li>Financial support during identification of energy-saving opportunities, design/engineering and implementation phases</li> <li>Geared towards mid-large customers or large commercial customers with large-scale heating plant systems</li> <li>Done in collaboration with electric utility</li> <li>Customers looking to achieve certification, such as International Standards Organization 50001 or the Department of Energy's 50001 Ready, can participate in this program to identify and prioritize energy-saving opportunities</li> </ul> <p style="text-align: right;"><a href="http://CenterPointEnergy.com/EngineeringPrograms">CenterPointEnergy.com/EngineeringPrograms</a></p>	<p>Full financial support for Phase 1</p> <p>Additional funding available for Phases 2 and 3</p> <p>Project rebates available</p>
NEW CONSTRUCTION/MAJOR RENOVATIONS	Funding available
<p><b>Energy Design Assistance Program - Commercial/Industrial</b></p> <ul style="list-style-type: none"> <li>Our third party energy modeling firm consults with the design team to incorporate energy-efficient strategies into the building design</li> <li>Ideal for commercial customers (healthcare, multi-family, schools, government/municipal)</li> <li>Support for Leadership in Energy and Environmental Design (LEED) certification or Minnesota Sustainable Building 2030 (SB 2030) performance standards is also available</li> </ul> <p style="text-align: right;"><a href="http://CenterPointEnergy.com/EngineeringPrograms">CenterPointEnergy.com/EngineeringPrograms</a></p>	<p>No cost consultation</p> <p>Rebates for projects that realize over 5% energy savings</p>

## Energy Data Portal

You can't manage energy you don't measure. Energy benchmarking is a foundational element of an organization's energy management strategy. Businesses use benchmarking to measure the energy use performance of a building and to inform performance improvement plans to manage energy costs. Across many commercial and multi-family building markets, this practice has become standard operating procedure.

The FREE Energy Data Portal from CenterPoint Energy is designed to make natural gas energy benchmarking easy. The portal offers a secure, online solution to request and receive whole-building natural gas energy use data and automatically transfers this information to ENERGY STAR Portfolio Manager® where CenterPoint commercial and multi-family customers can track building energy performance.

[CenterPointEnergy.com/BenchmarkingResources](http://CenterPointEnergy.com/BenchmarkingResources)

## ENERGY STAR® Verification Assistance Program

This program requires that a building's application be verified by a registered professional engineer or architect. CenterPoint will reimburse first time participating customers for the cost of the ENERGY STAR® application verification up to \$1,500 per building. Subsequent year participants will qualify for half the cost of the ENERGY STAR application verification up to \$750 per building PLUS up to an additional \$750 if documentation is furnished of an implemented natural gas savings measure resulting in a CenterPoint rebate. Customers must provide a copy of the verified application and documentation of the verification costs.

[CenterPointEnergy.com/EngineeringPrograms](http://CenterPointEnergy.com/EngineeringPrograms)

## Multi-Family Building Efficiency Program

This joint program with Xcel Energy is offered at no cost to five plus unit multi-family customers to encourage them to take a comprehensive approach to energy efficiency throughout their building. The program includes free energy audits, energy-saving upgrades and bonus energy efficiency rebates. To be eligible, buildings must have either:

- Electric and natural gas service from Xcel Energy or
- Natural gas service from CenterPoint Energy

## Affordable Housing Multi-Family 3X bonus rebates

This program provides bonus rebates to property owners/landlords of low-income properties for high-efficiency natural gas equipment installed in multi-family buildings with five plus units. Qualifying equipment includes furnaces, boilers, other heating systems, water heaters, foodservice equipment and more. Eligible buildings must be low-income qualified. Insulation rebates and weatherization may also be available for income-qualified buildings.

### Natural gas – the preferred energy choice for cooking

#### Lower operating costs\*

Annual energy costs for customers using natural gas is projected to be 30-50% less than the price of other fuels through 2050.

#### Precision control for better quality

Calculate your potential savings with our commercial foodservice calculator at [CenterPointEnergy.com/FSCalc](https://CenterPointEnergy.com/FSCalc).

*\*Sources: American Gas Association (AGA) Playbook 2024; Energy Solutions Center, Blue Flame Alliance Study*

### Equipment and customer eligibility

- CenterPoint Energy commercial customers who install qualifying equipment in CenterPoint’s Minnesota service territory
- Equipment must meet program specification requirements. For programs listed with California Energy Wise (CEW) or ENERGY STAR® ratings, refer to [CenterPointEnergy.com/Foodservice](https://CenterPointEnergy.com/Foodservice)
- Rebates apply to new equipment only

*Note: See detailed qualifications, rules, requirements and warranty information on the CenterPoint rebate application.*

### Complimentary training is available at the Foodservice Learning Center!

Our Foodservice Learning Center, conveniently located near downtown Minneapolis, is one of only a handful of centers of its kind in the country!

- Visit the center for an equipment consultation before making a purchase, or for staff training after you’ve selected your equipment.
- We offer customized training and flexible scheduling for groups up to 25.

### Ann Lovcik

**Foodservice energy efficiency expert**

Ann.Lovcik@CenterPointEnergy.com  
612-321-5470

Contact Ann for:

- Our state-of-the-art Foodservice Learning Center
- Complimentary equipment testing
- Hands-on demonstrations
- Latest natural gas cooking technologies
- Foodservice industry expertise

Online resources

Visit [CenterPointEnergy.com/BusinessRebates](http://CenterPointEnergy.com/BusinessRebates) for:

- Rebate guidelines and fill-and-print rebate applications
- Natural gas pricing information
- Email updates on- Monthly natural gas prices
  - Energy- and money-saving rebates
  - Seasonal curtailment information
  - Educational seminars
  - And more!

Access to the Energy Link e-newsletter

This quarterly publication features articles on money- and energy-saving opportunities from CenterPoint Energy, natural gas news, technologies, efficiency strategies, environmental issues, regulatory information and more.

Online calculators

See how much you may save on your energy bills and ways to reduce your environmental impact!

- **Energy costs and emissions:** See how you can benefit from choosing natural gas equipment compared to other energy sources.

[CenterPointEnergy.com/EnergyCalculator](http://CenterPointEnergy.com/EnergyCalculator)

- **Geothermal cost comparison:** Calculate the return on investment and environmental benefits of high-efficiency natural gas heating systems compared to geothermal heating systems.

[CenterPointEnergy.com/EnergyCalculator](http://CenterPointEnergy.com/EnergyCalculator)

- **Rebate calculator:** Calculate the estimated rebate amount you will receive when you take advantage of any of our prescriptive rebates.

Commercial rebate processing

Ways to submit completed applications

**Online** Download fill-and-print rebate forms at [CenterPointEnergy.com/BusinessRebates](http://CenterPointEnergy.com/BusinessRebates)

**Email** [MNCommercialRebates@CenterPointEnergy.com](mailto:MNCommercialRebates@CenterPointEnergy.com)

**Mail** Commercial Rebate Processing  
CenterPoint Energy  
PO Box 59038, Minneapolis, MN 55459-0038

**Fax** 612-321-4561

For online rebate application submission for single package vertical units, forced-air furnaces, electronic ignition hearths and smart thermostats go to [CenterPointEnergy.com/BusinessRebates](http://CenterPointEnergy.com/BusinessRebates) and click on *How to submit for rebates*.

Program dates are Jan. 1 - Dec. 31

- Completed applications must be submitted online or received by Dec. 31
- Completed applications must include a dated sales invoice or receipt
- Invoice/receipt must include brand, complete model number, serial number, purchaser name and installation address
- Equipment installed under warranty replacement does not qualify for a rebate
- One rebate application per qualifying piece of high-efficiency natural gas equipment

Looking for more ways to save?

Check out our energy efficiency tips.

[CenterPointEnergy.com/BusinessRebates](http://CenterPointEnergy.com/BusinessRebates)

CenterPoint Energy is committed to fueling our future by continuing to provide safe and reliable energy to the customers we have the privilege to serve.

**INNOVATIVE:** We are exploring innovative technologies like green hydrogen, made-in-Minnesota renewable natural gas and other developing technologies aimed at reducing emissions from our operations.

**CONSERVATION:** CenterPoint is committed to helping our Minnesota customers lower their natural gas emissions by 20-30% by 2035. Emissions can be reduced through the implementation of energy-efficiency programs, use of high-efficiency natural gas appliances, equipment and smart thermostats and usage of low and zero carbon fuels.

[CenterPointEnergy.com/Sustainability](http://CenterPointEnergy.com/Sustainability)

**COST-EFFECTIVE:** Presently, natural gas may be more affordable than other energy sources, providing your household and business with a cost-effective way to heat, cook and operate appliances.

**SAFETY:** CenterPoint is actively investing in its gas infrastructure to support the needs of our communities. We focus on projects that increase the integrity of our infrastructure to help us continue delivering natural gas safely and reliably to our customers.

**RELIABLE:** Natural gas is delivered through an extensive underground pipeline network that is often shielded from disruptive events and natural disasters.
