

CenterPoint Energy Foundation

CenterPoint Energy recognizes that our success – and the success of our neighbors – is linked to the vibrancy of our communities. We seek to improve the areas we serve by supporting programs that encourage connections, improve quality of life and promote inclusion to help communities thrive. We recognize an educated and engaged citizenry is critical to the future of our business and our service territories. We are committed to ensuring all students have the opportunities and tools they need to succeed academically, explore potential careers and are equipped to enter the workforce.
